

## Public Sector Organizations rely on Capital Project Management Solutions to help monitor Public Works projects

**Increase project visibility, manage funding sources, create accurate estimates, generate pay estimates, and manage contract communication and documents.**

### Capital Project Management

*The management of Capital Improvement Programs for public sector organizations across many funding sources is a challenging task. Additionally, documentation requirements are becoming more stringent every day requiring tighter project controls to satisfy government regulations for increased accountability.*

### Challenges

- Cumbersome budgeting and bid management process
- State and Federal documentation requirements
- Lack of access to timely information
- Complex Funding Sources
- Accurate Pay Estimates
- Contractor Management
