Unity Infra chooses Aurigo BRIX 2009 to automate it's construction management processes

India Infoline News Service / 18:37 , Mar 08, 2010

The combined solution of Aurigo BRIX 2009 and Microsoft Dynamics AX will completely automate their business and construction management processes.

Aurigo Software Technologies Inc, a leading software products and solutions provider catering to the Architecture, Engineering and Construction (AEC) vertical, has further strengthened its presence in the infrastructure space by acquiring customers such as Unity Infra Projects and KMC Constructions. The combined solution of Aurigo BRIX 2009 and Microsoft Dynamics AX will completely automate their business and construction management processes.

Aurigo's construction management and inspection system, BRIX 2009, is comprehensive CPMS (Capital Project Management System) that helps infrastructure project stakeholders automate the critical processes of estimation, contract management, inspection and facilities. BRIX 2009 is also the worldwide certified Industry add-on to Microsoft Dynamics AX and the combined solution is an incredibly powerful Industry ready ERP for the AEC Industries with a global customer base. Aurigo BRIX 2009 has also achieved the Certified for Microsoft Dynamics (CfMD) accreditation, Microsoft's highest standard for partner-developed software.

Balaji Sreenivasan, CEO and Founder, Aurigo Software Technologies, said, "These wins mark Aurigo's growing success and traction in the mid and large enterprise space fueled by India's infrastructure growth story. With the massive investments made in the infrastructure sector, CPMS (Capital Project Management System) systems such as Aurigo BRIX 2009 are becoming imperative for project success. BRIX 2009 can help Infrastructure Owners, PMC Firms, General Contractors and government agencies achieve greater visibility into the projects and faster information retrieval, thereby saving cost and time to complete; which are very critical to ensure project viability and profitability for all stakeholders. We are happy to welcome Unity Infraprojects and KMC into the Aurigo-Microsoft family and are looking forward to help them achieve their business transformation and automation goals successfully and with ease. "

Yogen Lal, Chief Operating Officer, Unity Infra Projects Ltd., said, "Unity Infra projects, a public listed company and one of the largest civil contractors in India, is witnessing significantly high growth in the current India infrastructure boom. Our projects are getting bigger, more complex and distributed at different geographical locations. Our need of the hour was an efficient web based project monitoring system that seamlessly tied into a world class ERP. The industry ready features in estimation, contract management and remote field inspection available in Aurigo BRIX were by far the best amongst the solutions we evaluated. By combining Aurigo BRIX with the powerful and easy to use Microsoft ERP solution, we see a winning solution that will help Unity become more efficient and scale greater heights."

The Microsoft-Aurigo ERP for construction offering is a unique 360 degree solution combining Aurigo BRIX 2009 (web based construction estimation and contract management software) integrated with Microsoft Project Server and Microsoft Dynamics AX, Microsoft's powerful ERP suite that automates the critical areas of Finance, HRMS, CRM, Inventory and Material Management. The award winning solution seamlessly automates traditional processes of land management, cost estimation, rate analysis, and contract change orders, running bill generation and digital field inspections for construction houses worldwide and is now making a serious mark in India.
