

AURIGO OWNERS SUMMIT

Agenda

Monday, October 05

4:00 pm

Guest Arrivals:

Guest Arrival & Resort Check-In

6:00 – 9:30 pm

Plus-ones welcome

Welcome Happy Hour

Location: Arbor

Tuesday, October 06

7:30 - 8:30 am

Plus-ones welcome

Morning Activities

- Interpretive Guided Sunrise Walk - Meet at The Garden Library
- Yoga - Meet at The Yoga Deck

8:30 - 9:45 am

Plus-ones welcome

Breakfast

Location: The Dining Room

9:45 - 10:00 am

Attendees only

Welcome & Founders Keynote

Location: The Lake Room

Balaji Sreenivasan

Founder and CEO,
Aurigo Software Technologies Inc.

Accountable by Design: Governance and Trust in Modern Capital Programs

Your constituents, your auditors, and your oversight bodies want the same thing: AI that delivers better citizen services and holds up to scrutiny. This session is our commitment to you that Aurigo has built the guardrails, the compliance frameworks, and the transparency so that when questions come, you have the answers. Every AI decision leaves a trail. We will show you how to make sure that trail tells a story of accountability, integrity, and trust.

Location: The Lake Room

Manish Sharma

Chief Information and Security Officer
Aurigo Software Technologies Inc.

10:00 – 10:45 am

Attendees only

10:45 – 11:00 am

Break | Snacks

The Program of the Future: Connected Planning, Smarter Delivery, and What's Possible Now

The next era of capital program delivery is here, and it is being shaped by AI. In this session, we'll show how Aurigo is putting intelligent agents to work across the entire program lifecycle, from connected capital planning and grants compliance to asset condition management and automated decision support. You'll see live demos of the latest Masterworks innovations and discover how Lumina, Aurigo's AI platform, is transforming the way agencies plan, fund, and deliver infrastructure at scale.

Location: The Lake Room

Shashikumar Balu

Vice President,
Products and Platforms,
Aurigo Software Technologies Inc.

11:00 am – 12:30 pm

Attendees only

12:30 - 1:30 pm

Plus-ones welcome

Lunch & Experience Center

Location: The Dining Room

1:30 – 2:15 pm

Attendees only

Realistic Robotaxi Operations: Insights on Fleet Sizing & Geofencing, Ride-Pooling & Pricing, SAVs as Transit & Smart-Charging, Competition & Service Types

Robotaxis promise flexible, on-demand rides, with lower crash rates; but their real-world impact hinges on fleet sizes and fares, service areas and charging strategies. This talk pools insights from thousands of simulations, including detailed models of Austin and Chicago, to show how such choices affect vehicle use and wait times, empty travel and profits. And how robotaxis can complement or replace existing transit systems, and what that means for planners and policymakers.

Location: The Lake Room

Kara Kockelman

Dewitt Greer
Centennial Professor
of Transportation
Engineering

2:15 - 2:30 pm

Attendees only

Break

2:30 - 3:15 pm

Attendees only

Beyond the State Line: How DOTs Are Modernizing the Local Agency Relationship

Local agencies deliver a share of federally or state funded infrastructure, but most state DOTs still manage that relationship through spreadsheets, email chains, and manual compliance checks. The result can be slow reimbursements, audit exposure, and frustrated local partners who disengage from certain programs entirely. This panel brings together state DOTs at different points on that modernization curve to talk candidly about what it actually takes to extend program management discipline to the local level. The conversation will cover how each agency approached the problem, what resistance they encountered internally and from local partners, and what's measurably different now in how they deliver oversight, technical assistance, and compliance tracking across their local program.

Location: The Lake Room

Mike Tooley

Vice President,
Industry Strategy
Group,
Aurigo Software
Technologies Inc.

Panelists

Steve West

Assistant Director, CIO
Arizona Department of
Transportation

Damon Zeltinger

Construction
Specialist South
Dakota Department of
Transportation

3:15 - 3:30 pm

Break | Snacks

Attendees only

3:30 - 4:15 pm

Voices from the Field

Darlene Svilkos
Erie County, NY

Attendees only

Location: The Lake Room

Carmalinda Vargas
City of Seattle

4:15 - 5:00 pm

What Comes Next: Industry Forces, the Workforce Horizon, and Aurigo's Path Forward

The infrastructure industry is being reshaped by forces that no single technology can solve alone — a shrinking skilled labor pool, growing program complexity, mounting pressure to deliver more with less, and constituents who expect both speed and accountability. This closing session steps back from the demos and case studies to examine what these shifts mean for owner organizations over the next three to five years, and how Aurigo is building its product strategy around them. We'll discuss how the next wave of automation isn't about replacing your workforce — it's about redesigning how work gets done so the people you have can operate at their highest level. Drawing on what you've seen and heard throughout the day, from governance and AI to peer implementation journeys, we'll frame where the industry is heading and what it will take to lead rather than follow. This is a conversation, not a presentation. We'll close with an open dialogue on the challenges you're anticipating, the capabilities you need, and how Aurigo's roadmap is being shaped by the owners in this room.

Kevin Koenig
Chief Technology Officer (CTO),
Aurigo Software Technologies Inc.

Attendees only

Location: The Lake Room

5:00 - 7:00 pm

Afternoon Activities

Plus-ones welcome

- Free Time
- Yard Games (Bocce Ball, Cornhole) - Meet at The Lawn
- Lake Equipment Rentals (Paddleboards, Kayaks, Hydro Bikes) - Meet at The Dock

7:00 - 10:00 pm

Sunset Roundup Dinner

Location: The Formal Gardens

Plus-ones welcome

Wednesday, October 07

7:30 – 8:30 am

Morning Activities

- Sound Bowl Meditation - Meet at The Pool Barn
- Tai Chi - Meet at The Lawn

Plus-ones welcome

8:30 - 9:30 am

Breakfast

Location: The Dining Room

Plus-ones welcome

9:30 - 9:35 am

Keynote introduction

Location: The Living Room

Attendees only

9:35 - 10:35 am

Featured Keynote Address - Jonathan Brill

Location: The Living Room

Jonathan Brill

Futurist in Residence at Amazon

Attendees only

10:35 - 10:45 am

Q&A/Break

Attendees only

10:45 - 11:30 am

Award Ceremony

Location: The Living Room

Attendees only

11:30 am - 12:30 pm

Taste of Texas Margarita & Salsa Making

Location: The Lake Lounge

Attendees only

12:30 - 1:45 pm

Plus-ones welcome

Lunch

Location: The Dining Room

1:45 - 2:00 pm

Plus-ones welcome

Closing Remarks

2:00 pm

Summit Concludes & Guest Departures
