

Balaji Sreenivasan

Founder, Chief Executive Officer

Balaji Sreenivasan is the founder, Chief Executive Officer, and board member at Aurigo Software Technologies. He has been instrumental in shaping Aurigo into a modern enterprise cloud software business that helps infrastructure owners worldwide build a better tomorrow. In his leadership role, Balaji focuses on defining strategic product direction, driving customer engagement, and mentoring the next generation of leaders at Aurigo. With a background in mechanical and aerospace engineering, he brings deep expertise in enterprise software, blockchain, and AI/ML technologies. Balaji is an alumnus of the National Institute of Technology (NIT), Trichy, the University of Florida, Gainesville, and the Harvard Business School.
