

Deliver big projects on time and on budget

Plan, partner and deliver projects within states, counties and cities efficiently

Whether you are responsible for a military base, hospitals, federal IT systems, or rehabilitation centers, your agency's capital programs and maintenance budgets need to be used efficiently.

Leading capital improvement and infrastructure projects within states is a complex job. In addition to deciding where to invest capital and maintenance budgets across all the competing priorities, you also must partner with each state, and possibly county and city, that touches each project.

Ensure capital and maintenance program success

Aurigo Masterworks Cloud is an end-to-end software solution that automates every phase of the capital project lifecycle from capital planning, federal fund obligations, bidding, contract management, permit management, reimbursement management, field inspections and out-year asset maintenance. Aurigo Masterworks can be used by both internal and external stakeholders using the latest web and mobile technologies.

*"We are excited to use Aurigo's enterprise cloud and mobile products to drive greater efficiency, collaboration and automation. The Aurigo Masterworks Cloud will help us **get projects released, awarded and reimbursed from federal funds faster.**"*

– DAVID WOOLRIDGE | CHIEF IT MANAGER, NEVADA DOT

Trusted by 200+ customers across North America

Aurigo is consistently chosen over competitors during RFPs by cities, counties, states, agencies, and companies across North America. Customers appreciate the industry expertise and proven track record of results we bring to the table.

The Aurigo Masterworks Cloud suite of products helps federal agencies prioritize where to invest capital budgets, manage the construction and maintenance of your infrastructure and facilities, and ensure quality levels are met every time.

- **Maximize the impact of your capital budget** with what-if analysis so that you can create long-range plans, de-risk decisions, and invest in new capital programs and infrastructure with confidence.
- **Bring together everything you need** to plan, track, automate and manage program budgets, funds and schedules in one place.
- **Create detailed engineering estimates faster, streamline the bid letting process, and normalize all bids you receive** so that you can select the best bid every time.
- **Implement an agency-wide strategic sourcing program** and centrally manage all the repeat services that are required across projects.
- **Move contracts from creation through closeout, and automate the contract change order process** to keep your construction projects on schedule and on budget.
- **Plan, track and manage construction project resources, schedules, budgets, contracts and risks** to ensure projects are on time and on budget.
- **Ensure DBE commitments, payroll and on-the-job training goals** are met on every construction project.
- **Extend the life of your assets with strategic maintenance** supported by an online Lab Management product that saves you time and maximizes the impact of your maintenance budgets.
- **Ensure safety and compliance during construction and maintenance work** so that you can keep your teams safe, keep your community safe, and ensure every task is carried out completely and accurately.
- **Get a central view across all your projects** with online reports and dashboards that let you drill down for more details.
- **Access the information you need from anywhere on any device** using Aurigo's mobile applications that work even when you're offline and out of cell service.
- **Get a modern system that is easy to configure and easy to update** as your teams and processes evolve over time. Our Configuration Toolkit makes it easy to change any screen, any process and any report so that the software can continue to make you more productive even as your processes change.
- **Integrate with your existing environment and applications.**

Aurigo's online Capital Planning product is part of the broader Aurigo Masterworks Cloud suite designed to help cities, counties, states, agencies and businesses plan, build and maintain their capital programs, infrastructure and facilities.
