

## Make your life easier with automated permitting

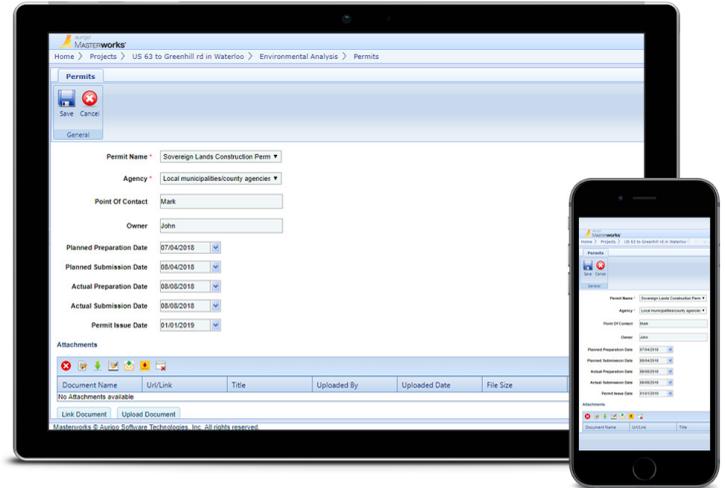

Whether you're managing permits for water use, airways, driveways, special events, or construction projects for commercial or residential buildings, you benefit greatly from standardizing and automating your permit application, approval and management processes.

However, each type of permit is different, with unique information required and different teams responsible for approvals and oversight. Incomplete data, lost forms and slow response rates frustrate everyone involved, including your constituents.

### Products in our Business Operations product line include:

- Real Property Management
- ▶ Permitting
- Advertising
- Claims Management

### Aurigo's SaaS Permitting product includes:

#### ✔ Centralized Permitting Hub:

- Permit application
- Permit issuance
- Permit inspection
- Permit approvals
- Payment processing
- Permit log
- Full audit trails

#### ✔ Online Portal:

- Online application process with automated routing to the correct department or person

#### ✔ Permit Templates:

- Configurable templates with specific data requirements for each type of permit
- Configurable validation rules
- Easy template selection

#### ✔ Integrations:

- Integrates with existing permit application website
- Payment processing integration
- Two-way ESRI ArcGIS integration

#### ✔ Workflow Automation:

- Configurable permit approval workflows
- Enforceable approval rules
- Multilevel approvals
- Configurable notification alerts

#### ✔ Visual Mapping:

- GIS mapping & visualization
- Document and visualize permit and inspection site locations

*"We are excited to use Aurigo's enterprise cloud and mobile products to **drive greater efficiency, collaboration and automation.**"*

– DAVID WOOLRIDGE | Chief IT Manager, Nevada DOT

**BENEFITS**

**Aurigo’s cloud Permitting product helps teams at cities, counties, states and public agencies collect better data and streamline the permitting process.**

- **Decrease processing time** and respond to applicants faster with business process automation across every stage of the permit process – from the time it arrives via a citizen portal until the time you issue the permit, inspect the property, and process the payment.
- **Delight constituents** with an easy online portal to request permits and inspections, make payments and check the status of their applications.
- **Eliminate paper forms** using electronic permit forms and automated approval workflows.
- **Ensure applications have complete information every time** with comprehensive data validation rules configured for each type of permit’s specific requirements.
- **Streamline inspections** and get notes directly from the field with mobile inspection reports.
- **Make more informed decisions** with a full history of every location, visual GIS mapping, site historical activity, payment and other relevant data all on one screen.

**MASTERWORKS**  
CLOUD

Aurigo’s online Capital Planning product is part of the broader Aurigo Masterworks Cloud suite. Aurigo helps cities, counties, states, agencies and businesses plan, build and maintain their capital programs, infrastructure and facilities.
